EDUCATION

The University of Texas at Dallas, *Software Engineering, B.S.*
May 2020

EXPERIENCE

Emcee Agency, *Frontend Developer Intern* | Toronto, Canada May '17 – Jul '17
HTML, CSS, JavaScript, Git, GitHub, Bootstrap

Remotely helped build and design a responsive, user-friendly, and informative website for a new, open-source build system. Integrated user interaction tools to understand user traffic and design flaws within the website.

IntelliChoice, *UT Dallas EPICS, Web Developer* | Richardson, TX Jan '17 – May '17
HTML, CSS, JavaScript, NodeJS, Git, GitHub

Implemented two features to make the IntelliChoice attendance system user-friendly and the enrollment process less tedious for branch managers and the IntelliChoice students.

Gowani Pump Supply, *Web Developer* | Dallas, TX Jun '16 – Dec '17
HTML, CSS, JavaScript, Bootstrap, jQuery, Webpack, Git, GitHub, Bootstrap

Built, designed and maintained the consumer aimed website to improve the online presence of Gowani Pump Supply. Made it easier for potential customers to contact the business for inquiries.

PROJECTS

Quack, *HackNYU 2017 Sponsor Prize Winner* February 2017
HTML, CSS, JavaScript

Our team built upon an open source project and created an improved game that used Leap Motion to teach and test basic American Sign Language.

DailyMotivation, *Chrome Extension* January 2017
HTML, CSS, JavaScript

Created an extension that motivates users with every search by providing a motivational quote with every new tab. Motivating around **2,000 weekly users**.

Hangman, *Summer Project* July 2017
HTML, CSS, JavaScript, Bootstrap, AngularJS, Webpack

Developed as a tutor to help students discover new words and improve their spelling while having fun!

WHEN I AM NOT CODING...

Intro to Web Development, *Founder, Instructor* August '17 – October '17
Founded and led a course to teach high school students the basics of web development. The students were given an opportunity to solve an existing problem through a website while applying the skills they learned.

SKILLS

HTML/CSS	AngularJS	Bootstrap	GitHub	Java
